

Agilysys

Next Generation Restaurant Solutions That Nourish Your Bottom Line

Agilysys is a leading developer of enterprise software for the restaurant industry. We specialize in next-generation solutions designed to enhance guest experience, drive down operating costs and maximize revenue potential.

With integrated products for point-of-sale, table management, secure payment, inventory/procurement, workforce management, analytics, and mobile/wireless, we support innovative customers worldwide.

Meet Every Guest's Needs

When you eliminate the distance between your servers and guests,

- servers are more available to meet guest needs.
- orders are sent to the kitchen or bar much faster.
- you improve guest satisfaction and your bottom line.

InfoGenesis® Flex is a state-of-the-art mobile Point-of-Sale (POS) solution that enables frontline staff to serve guests more efficiently, even in remote or expansive high-volume environments, improving their experience while enhancing your revenue. And with offline capabilities, Flex tablets provide uninterrupted guest service everywhere.

Simple and Secure Payment

Your guests depend on you to keep their card information safe regardless of their payment preference. Protect your guests' financial data and reduce your risk with rGuest® Pay Gateway, leveraging point-to-point encryption (P2PE) and tokenization on every credit card transaction.

rGuest Pay Gateway allows you to...

- accept magnetic stripe, EMV chip cards and Apple Pay™ to reduce fraud and stay prepared for new technologies.
- protect your business against costly data breaches with industry-leading P2PE and tokenization.
- guard your company's good reputation with customers by ensuring their financial information remains safe and secure.
- reduce the cost of complying with PCI security standards.

rGuest Pay offers broad support for U.S. credit card processors and a wide variety of payment device options for every use-case, including countertop, pay-at-table, EMV, mobile tablet, and signature capture scenarios.

Agilysys, a leader in industry-specific hospitality solutions, has the technology you need to reduce customer wait times, simplify your processes and cash in on revenue opportunities.

A Full Suite of Restaurant Management Solutions

Point-of-Sale

Agilysys InfoGenesis POS is designed to help you serve guests more effectively while improving your profitability. This flexible point-of-sale system is easy to set up and maintain, and its scalable architecture allows you to add workstations without having to build out expensive infrastructure. InfoGenesis POS integrates easily with a wide variety of other applications, including property management, inventory and procurement, self-service options, property activities, and so much more.

Reservations and Table Management

rGuest Seat is a guest centric table, reservation and wait list management solution that helps restaurants increase revenue by retaining repeat customers and providing a superior guest experience. Online dining reservations enable restaurants to increase bookings by allowing diners to reserve a table through your website or mobile app. Wait list management optimizes your restaurant's use of tables and resources, helping your staff estimate wait times more accurately and avoiding lost or dissatisfied customers.

Inventory & Procurement

Agilysys Eatec® is an inventory and procurement solution that provides core purchasing, inventory, recipe, forecasting, production and sales analysis functions as well as offering optional catering, restaurant, buffet management and nutrition modules in a single Web-enabled solution. Manage your inventory with a full featured, Windows®-based, solution for foodservice operations of any size in any market, from restaurants to tribal gaming to universities. With Eatec, you can replace costly, disparate systems with a centrally located suite of management tools that is accessible from any outlet in your organization. The software is available as an on-premise solution or through a subscription service.

Workforce Management

Agilysys Workforce Management Solution WMx™ is a full suite of workforce management tools for hospitality professionals. Leverage data that enables more informed decision-making, reduces labor costs and empowers employees while aligning corporate best practices with day-to-day activities. An accurate, mobile, customizable and easy-to-use solution, WMx is designed with your efficiency and productivity in mind.

Analytics

rGuest Analyze gives you quick, complete access to the data that already resides in your InfoGenesis POS system. Explore your data to reveal insights that will redefine your operations. On-demand business intelligence data improves decision-making accuracy. And with anytime, anywhere access to item sales, tenders, check sales and discounts, you take charge of your business even when you're not on site.
