

Agilysys

Elevate™ Your POS Experience

Agilysys Elevate™ is a next generation point-of-sale (POS) solution that operates in the cloud. It's everything you need to simplify operations and boost your bottom line - only from Agilysys. Elevate is specifically designed for managed foodservice outlets, but is a great solution for any single pass environment. Agilysys Elevate delivers fast and easy remote deployment capabilities, flexible configuration, intuitive order entry and unified, enterprise reporting governed by role-based security levels. With the software's offline capabilities, including credit card payment acceptance, data is automatically synchronized once connectivity is restored. The solution supports a variety of peripheral devices, including barcode scanners, scales, receipt printers and pole displays.

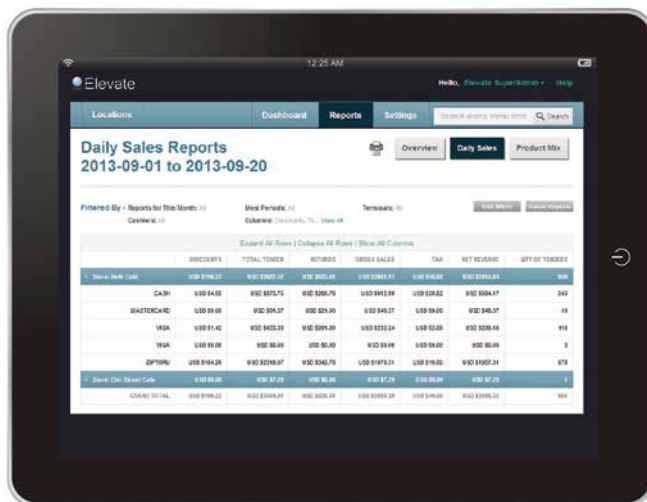

Increase Your Speed of Service with Agilysys Elevate™

Elevate Product Highlights

- Single store to full enterprise cloud based solution
- Back office reporting from any web browser on your laptop or tablet
- Change menu items, prices and configure screens on the fly
- Continuously monitors credit card processing speed and terminal activity for optimum performance
- P2P encryption with EMV capability ensures payments security
- Low cost - high performance

With Agilysys Elevate™ you can access your data in real time from any location

The Agilysys Elevate reporting tool allows users to see trends in sales by meal period, time period, category/tag, cashier or terminal. Users can easily access sales and product trends across multiple units within the reporting hierarchy. Reports can be accessed on-demand from anywhere, anytime and from any device with internet connectivity. All data is delivered in real-time so a manager/owner can monitor store performance regardless of time zone. Agilysys Elevate unifies technology allowing a secure cloud based system at an extremely modest price point.

Agilysys Elevate is the next generation POS solution
