

GET OUT OF THE WEEDS AND GET ON WITH BUSINESS

Enough with the spreadsheet shenanigans.

You need an online system that lets your employees view their schedule, make time-off requests, and swap and pick up shifts. You want an automated tool to keep track of labor data, forecast schedules and work across all of your locations.

FEATURES

Schedule

- Shift Trade/Swap
- Time-Off Requests
- Template Generator
- Enforced Clock-ins
- Availability Requests
- Messaging
- Budget comparison report

Analyze

- Daily Roster
- Staff Volume Tracking
- Overtime Management
- Sales Trends
- Labor Budgets
- Forecasts
- Employee Certification

Communicate

- Broadcast message
- Real-time messaging
- Push notifications
- Touch-to-dial and text

Training

- On-demand training
- In-app walk throughs
- Best practices webinars
- Dedicated Implementation and Training Specialist

Support

- 24/7 Automated Help
- Bilingual Customer Care
- Customer Success Manager
- Community Forum User knowledge base

Add-Ons

- Logbook
- Above Store Console

 REDUCES LABOR COSTS UP TO 2%

 SLICES SCHEDULING TIME IN HALF

One of our locations is really enjoying spectacular results with HotSchedules. Their labor percentage dropped 4.1% and sales went up 15.58%. They've been open 8 years and this is the most dramatic change we've ever seen at this location.

-Nathan Aukerman,
Director of Training,
Mint Julep Operations
