

GAIN CONTROL OVER YOUR OPERATIONS.

A seamless solution for property-wide or chain-wide hotel and resort management

Enhance guest service while increasing operational efficiencies.

Not all property management systems are created equal, and hospitality professionals looking to automate their processes need to choose the right solution for their specific needs. Large, complex resorts require a system that can integrate numerous applications across multiple outlets. Hotel chains need the ability to share data from property to property for performance analysis. Regardless of size, hotels need to be able to offer flawless service in order to remain successful, whether it's one person renting a room for the night or a large group hosting a conference.

Agilysys Visual One® PMS provides an enterprise-wide, integrated solution for full-service resorts and hotels. The software is feature-rich and interfaces to Internet Distribution Systems (IDS) through Hotel Technology Next Generation (HTNG) standards, which makes your rooms available to more marketing channels for increased exposure. With interfaces to leading global distribution systems (GDSs) and other Agilysys products, Visual One PMS offers a reliable, scalable solution for full-service resorts and hotels. Add any mixture of modules to create the ultimate property-wide or chain-wide management solution, enabling improved guest relationship management, enhanced business performance analysis and increased profitability.

Benefits of the Visual One PMS system include:

- **Fully-Integrated Suite.** Choose only the modules you need, including golf, spa, sales and catering, condo, activities, retail POS and more.
- **Scalable.** Scales to 1500 rooms.
- **Online Booking with No Reservation Fee.** Enhance guest service and reduce labour requirements; Internet reservations are instantly added to Visual One PMS.
- **Rate and Availability Calculator.** Quote and book with ease; see multiple room types, tariff codes and packages on one screen.
- **Built-In Activities Scheduler.** Present your guest with a single itinerary that includes spa appointments, golf tee times, dinner reservations and more.
- **Extensive Rate Inventory and Yield Management Tools.** Sell room nights based on occupancy levels and other criteria, ensuring you get higher rates when demand increases.

Visual One from Agilysys helps you create a memorable guest experience and build lasting relationships.
