

DOCUMENT MANAGEMENT SOFTWARE THAT ELIMINATES WASTE

Environment-friendly Easy-to-use

Grow Your Bottom Line with a Reduced Paper Load

Boost employee productivity by improving access to data. Transform the time-consuming, manual tasks of everyday document and process flows into an efficient, money-saving practice that also promotes environmental stewardship.

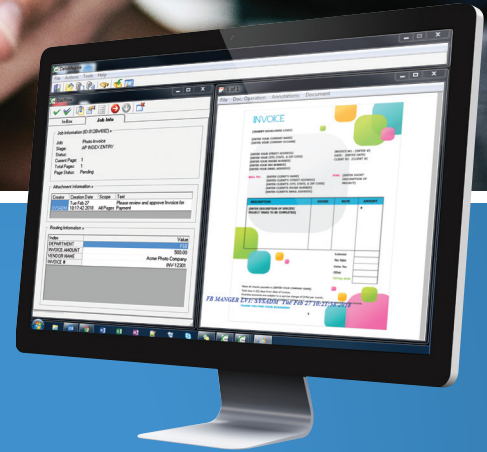

Transform your Front Desk, Go Paperless

Property management systems (PMS) produce volumes of paper documents, ranging from night audits, guest registration cards, and group folios. DataMagine streamlines all these processes with electronic signature capture, and with supporting modules like Report Archive, DataMagine Link, Driver's License and Passport scanning, staff can easily and securely attach documents to PMS transactions. Transform your front-of-the-house with secure, digital records and paperless processes.

- Easily comply with regulatory requirements with transactions stored as a single record.
- Quickly retrieve any document, whether you're on-site or on-the-go.
- Improve guest service with real-time responses to phone inquiries, proof of stay, check-in and check-out.
- Eliminate manual filing and search errors, and instantly locate registration cards.

“DataMagine is the ideal solution for managing our electronic waivers program as well as for archiving other documents . . . we are confident that we're using technology that not only improves operations but also enhances guest service.”

-- Director of Information Technology
at Royal Caribbean Cruises Ltd.

Transform your Accounts Payable Processes

DataMagine links electronic document management capabilities with your accounts payable business applications, whether they're third party or in-house created programs.

- Instantly capture all purchasing data from transactions processes
- Easily attach, scan and search for documents linked to purchase transactions
- Bring efficiency back into your approvals process with electronic routing
- Enable accurate document indexing and proper organization
- Leverage web-based forms for check requests and more.
- Fully automate the invoice process

Transform the Way you Share and Manage HR Documents

Human Resources is often so burdened with paperwork, it's hard to focus on people. DataMagine enables HR staff to manage compliance and other processes more efficiently. Focus on what's most important - your people.

- Easily scan, index and search for personnel records linked to your HR software
- Conveniently capture employee data using web-based forms
- Increase efficiency with DocFlow to manage document approvals routing
- Safeguard all employee records with built-in disaster recovery
- Simplify document imports from other, third-party HR applications
- Synchronize index data between DataMagine and your existing HR applications.
- Automate regulatory compliance with data retention support

Everything you Need. Nothing you Don't.

Whether you need a paperless solution for one location or across multiple business units, DataMagine offers the most sophisticated process for organizing, storing, accessing, sharing and editing important data. Providing significant time and labor savings, without the cost of unnecessary features.

Choose everything you need, and nothing you don't:

- Email Attendant
- Barcode Processing
- Portable Search & View with Client
- DataMagine Import Module
- DataMagine Link
- DataMagine Web Services
- DocFlow Email Approval
- DocFlow Routing
- Document Imaging Host
- Driver's License and Passport Scanning
- e-Forms Processing
- e-Waivers
- Export and Purge
- Full Web Client
- Index Update Module
- Signature Capture Integration
- Report Archive & Retrieve
