

The Front Desk, In Your Guest's Pocket

Mobile Check-In & Check-Out
Designed Around Guest Convenience

Today's guests expect control and convenience on their own devices.

Waiting in line or downloading multiple apps creates friction before the stay even begins. Agilysys Express Mobile enables guests to check in, check out, and manage key arrival tasks from their smartphones. This helps in reducing front desk demand while delivering a fast, flexible, and branded mobile experience that integrates with core hotel systems.

Benefits:

Convenient Check-In & Check-Out

Allow guests to complete check-in and check-out on their own devices, easing lobby traffic and improving arrival flow during peak periods.

Reduce Bottlenecks at Check-In

With Express Mobile, enable mobile check-in guests to verify ID, print keys, and head straight to their room reducing lobby bottlenecks and cutting kiosk time.

Improved Guest Convenience & Control

Give guests the freedom to manage arrival and departure tasks on their own time, creating a more personalized and stress-free experience.

Incremental Revenue Opportunities

Present targeted upgrades, early check-in, late check-out, and add-ons within the mobile flow to drive incremental revenue without staff involvement.

Consistent Guest Experience Across Properties

Deliver a standardized, branded self-service check-in experience across single or multi-property operations, ensuring consistency while still supporting property-level configuration.

Contactless, Secure Interactions

Support touchless guest interactions while maintaining secure, compliant workflows for identity verification and payments.
