

Mobile Ordering Technology Designed for Ultimate Flexibility

Empower Guests to Order Anywhere
While Boosting Efficiency & Revenue

Flexibility and convenience define today's guest experience.

Whether relaxing, exploring, or on the move, guests expect a frictionless way to order and pay using their own device, with no waiting and no limits. Agilysys IG OnDemand brings that expectation to life with a flexible, mobile-first ordering experience that reduces operational burden, lifts revenue, and keeps guests connected wherever they are.

Benefits:

Optimize Labor

Free staff to focus on hospitality, upsell opportunities, and high-value tasks in both front- and back-of-house operations.

Streamline Order Delivery

QR codes, table numbers, and room identifiers ensure items are sent to the correct location, reducing errors and saving staff time.

Increase Revenue

Drive higher check averages with built-in upsell prompts and personalized recommendations.

Enhance Guest Satisfaction

Guests order and pay from their own device, at their convenience and from any location, creating a seamless and intuitive experience.

Boost Operational Efficiency

Streamline workflows, ease pressure during peak times, and enable higher order volume and faster service without additional labor.

Flexible Management

Whether a restaurant, food court, or room service operation, IG OnDemand adapts to any concept, providing complete control over which venues and menus you make available.
