

Reservations Made Simple, Efficient, & Scalable

A Modern Platform to Manage Bookings
Across Properties & Channels

Reservation management should make work easier, not harder.

Agilysys Reserve helps hospitality teams make booking simple and stress-free for both staff and guests. Whether reservations come online or on property, everything works together in one place. This way availability is always up to date, and mistakes are minimized. Teams can easily manage bookings and get a clearer view of what's driving revenue. The result is a smoother guest experience, easier capacity management, and smarter decisions without the complexity of disconnected systems.

Benefits:

Maximize Capacity & Revenue Across Rooms and Amenities

Optimize bookings with real-time availability and flexible pricing for services, activities, cabanas, dining, and more.

Streamline Activity Desk & Restaurant Operations

Automate confirmations, assignments, activity schedules, and reporting so teams can focus on delivering exceptional service.

Enhance Guest Convenience

Allow guests to reserve activities, secure cabanas or modify plans through multiple channels, all in one smooth, consistent experience.

Capacity Management

Monitor booking trends for activities, and amenities in real time to better forecast demand, optimize staffing, and increase revenue opportunities.

Reduce Operational Errors

Centralize reservations for experiences, and amenities to eliminate double bookings, missed updates, and manual workarounds between departments.

Scale Experiences Across Single or Multi-Property Operations

Manage reservation availability across one or multiple properties with consistent rules, centralized visibility, and flexibility.
