

# Mobile Ordering On Any Guest Device

## Simplify Food and Beverage Ordering Anywhere

With IG OnDemand, guests can place and pay for orders using their own device - phone, tablet, laptop - making the ordering process easier and freeing up staff to spend more time with guests. The result is dramatically increased revenue opportunities.

## More opportunities to enhance guest service

### Multiple Venues or Concepts

Guests can view and order from a variety of food & beverage locations on your property. Whether it's a food court, a bar, an individual restaurant or room service, you determine the venues and the items you want to offer.

### Let the System Locate the Guest

Whether it's a seat in the sportsbook or the foodcourt, a cabana at the pool or a guest room, IG OnDemand can use location-specific QR codes, table numbers or room numbers to designate where to deliver the order.

### Flexible Configuration

Leverage the same configuration for IG Buy and IG OnDemand to reduce backend setup and system maintenance. Save time & money with fast updates as your offerings change.

### Display Real-Time Delivery Wait Times

When bundled with our Agilysys IG KDS kitchen display system, you can provide real-time order fulfillment wait-time to properly set guest expectations.
