IG PanOptic Kiosk

LET AI HELP DRIVE REVENUE & EFFICIENCY

Frictionless Grab N Go Self-Service

AI-Powered Self-Checkout

IG PanOptic Kiosk is an AI-powered self-checkout kiosk that allows guests to simply place multiple food items on the kiosk tray all at one time. As soon as the guest places items on the tray, the PanOptic AI service uses computer vision and AI to scan the items, recognize them, initiate a new shopping cart and automatically add them.

Delight guests and speed the checkout experience

Identify Multiple Items

The kiosk can simultaneously identify multiple items instead of having to individually scan each one. Guests can seamlessly add/remove items to the cart without using the kiosk user interface

Confusion-free Item Recognition

The kiosk is smart enough to recognize foreign items (such as wallets, car keys, phones, pens, etc.) placed on the tray along with the valid store items and can take appropriate action.

Instant Accurate Pricing & Payment

The total bill is calculated based on the respective prices of the identified objects, and the guest can easily check out items in the cart using any of the payment methods supported by the property.

Drive More Volume With Existing Staffing

Drive more volume through food checkout lines while maintaining or reducing the number of checkout staff required. The result is faster guest service, increased revenue and optimized venue operations.

To find out how you can revolutionize the guest experience, contact your Agilysys representative, or call us at 877 369 6208.

ABOUT AGILYSYS

Agilysys is well known for its long heritage of hospitality-focused technology innovation. The Company delivers modular and integrated software solutions and expertise to businesses seeking to maximize Return on Experience (ROE) through hospitality encounters that are both personal and profitable. Over time, customers achieve High Return Hospitality by consistently delighting guests, retaining staff and growing margins. Customers around the world include: branded and independent hotels; multi-amenity resort properties; casinos; property, hotel and resort management companies; cruise lines; corporate dining providers; higher education campus dining providers; food service management companies; hospitals; lifestyle communities; senior living facilities; stadiums; and theme parks. The Agilysys Hospitality Cloud™ combines core operational systems for property management (PMS), point of sale (POS), and inventory and procurement (I&P) with Experience Enhancers™ that meaningfully improve interactions for guests and for employees across dimensions such as digital access, mobile convenience, self-service control, personal choice, payment options, service coverage and real-time insights to improve decisions. Core solutions and Experience Enhancers are selectively combined in Hospitality Solution Studios™ tailored to specific hospitality settings and business needs.
