

Forward-looking Statements & Non-GAAP Financial Information

Forward-Looking Language

This presentation contains "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as: "anticipate," "intend," "goal," "seek," "believe," "project," "estimate," "expect," "strategy," "future," "likely," "may," "should," "will" and similar references to future periods. Examples of forward-looking statements include, among others, our revenue, subscription revenue and Adjusted EBITDA guidance for the 2024 fiscal year and statements we make regarding expected property management room growth.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the impact macroeconomic factors may have on the overall business environment, our ability to achieve our fiscal 2026 guidance, future revenue growth, the company's ability maintain sales levels, the Company's ability to integrate Book4Time and realize future synergies, and the risks described in the Company's filings with the Securities and Exchange Commission, including the Company's reports on Form 10-K and Form 10-Q. Additionally, references to "record" financial and business levels in this document refer only to the time period after Agilysys made the transformation to an entirely hospitality focused software solutions company in FY2014.

Any forward-looking statement made by us in this press release is based only on information currently available to us and speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statement that may be made from time to time, whether written or oral, whether as a result of new information, future developments or otherwise.

Use of Non-GAAP Financial Information

To supplement the unaudited consolidated financial statements presented in accordance with U.S. GAAP in this press release, certain non-GAAP financial measures as defined by the SEC rules are used. These non-GAAP financial measures include EBITDA, Adjusted EBITDA, adjusted net income, adjusted basic earnings per share, adjusted diluted earnings per share and free cash flow. Management believes that such information can enhance investors' understanding of the Company's ongoing operations.
