

Simple, Mobile Third Party Payments

With an increased focus on the convenience and security of contactless payments, Agilysys Authorize makes it easy to accept and track 3rd party contactless transactions by eliminating paper credit card authorization forms.

Agilysys understands that guests are hesitant to fill out paper forms, and that holding unencrypted credit card information is a liability. In addition, human error and potential fraud can result in charge-backs and increased card expenses.

In today's contactless economy you need a secure, simple solution to accept 3rd party payments that integrates directly with your PMS.
