

Payment Technology That Keeps Your Business Moving

Protect Revenue, Reduce Risk, & Delight Guests

Collecting third party and advance payments should be reliable and friction free.

But manual credit card authorization forms expose sensitive information and can lead to errors that result in chargebacks and higher operating costs. Agilysys Authorize automates and simplifies the full payment lifecycle, from deposits to folio charges, with secure, PCI compliant workflows. Guests easily complete authorizations on their own devices while operations gain control, transparency, and greater payment accuracy.

Benefits:

Reduce Payment Friction

Enable quick transactions that minimize delays at check-in and checkout, creating a smooth guest experience while reducing staff intervention.

Simplify Payment Operations

Eliminate complexity by managing authorizations, settlements, and adjustments in one centralized system, improving staff efficiency.

Improve Payment Security

Protect sensitive payment data and reduce fraud exposure with PCI-Compliant processing, tokenization, and secure authorization workflows.

Gain Greater Financial Control

Maintain clear visibility and control over authorizations, deposits, and incremental charges to reduce revenue leakage.

Increase Authorization Success Rates

Capture more approved transactions with intelligent authorization handling, optimized timing, and automated retry logic that reduces declines.

Contactless Payments with Confidence

Handle high volumes with modern payments like Apple Pay, Google Pay, and digital wallets for faster checkout.

Agilysys Authorize **Product Features:**

Automated Deposits & Advance Payments

Collect room deposits, advance payments, and guarantees automatically, eliminating manual authorization forms and reducing errors.

Secure Payment Authorization & Tokenization

Protect cardholder data with PCI-compliant tokenization, ensuring secure authorizations without exposing sensitive payment information.

Guest-Initiated Secure Payments

Allow guests to securely submit payment details using their own device, improving convenience while keeping sensitive data out of staff workflows.

Efficient PMS Posting

Automatically post approved payments and authorizations directly to a guest's profile and eliminate manual error and re-entry.

Configure Authorization Controls

Define payment types, authorization amounts, and charge limits by reservation or use case to maintain control and reduce disputes.

Native PMS Integration

Purpose-built for Agilysys PMS environments, which enables fully automated payment workflows without third-party tools or custom integrations.

The Power of the **Agilysys Ecosystem**

Take Authorize further with integrated solutions designed to streamline operations and personalize every guest interaction.

 Authorize

 Pay

Turn authorizations into faster, seamless payments.

 Versa

Connect payments to the guest journey for simpler billing.
