

Modern On Campus Tech for Today's Generation

Deliver a Touch-Free Experience

A suite of software solutions for higher education environments that focuses on the diverse preferences of your student and faculty population with touch-free transactions. Automate the food ordering experience, support physical distancing, and get real-time F&B operational insights.

Creating a Contactless Student Environment

Flexible options for kiosk, mobile and campus card engagement take center stage where efficiency is the new norm.

IG ONDEMAND

Offer your diners a complete contactless self-service F&B ordering solution that offers an intuitive diner-facing order and pay experience. IG OnDemand allows diners to place and pay for orders using their own device - phone, tablet, laptop – for pick-up or delivery. The result is dramatically increased revenue opportunities and more chances to enhance customer service.

IG BUY

A self-service F&B ordering kiosk to serve customers 24-7. Diners casually select menu items, process their credit card payment and print a receipt – all using a simple interface. No service staff required, reducing the time and cost it takes to serve each diner.

PANOPTIC KIOSK

The PanOptic AI-powered self-checkout kiosk allows diners to simply place multiple food items on the kiosk tray all at one time. As soon as the diner places items on the tray, the PanOptic AI service uses computer vision and AI to scan the items, recognize them, initiate a new shopping cart and automatically add the items to the cart.

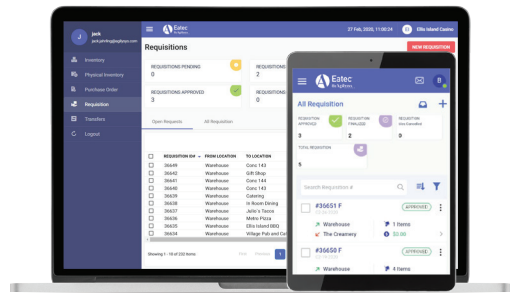

AGILYSYS INFOGENESIS POS

Create efficient campus dining experiences in any venue. IG Flex provides a POS mobility solution that offers full functionality delivered on a convenient tablet device. The solution supports signature capture, adaptable kitchen and receipt printing for large service areas, and a feature-rich mobile experience. The result is reliable customer service in the most demanding environments to grow revenue across venues of any type.

IG DIGITAL MENU BOARD

Provides a large format digital display on industry standard technology to present high quality images and menus for a variety of venues. Digital Menu Board allows users to create and design layouts using pre-defined templates, and schedule menus with auto-update at defined times for a specified menu list. With support for rotating menus with promo prices for items and combos, the result is flexible graphical menu and offer displays linked to your InfoGenesis backend to present up to date items and pricing and increase venue revenue.

AGILYSYS EATEC

Agilysys Eatec provides ordering and nutritional management so you can reduce costs while supporting dietary needs of your student population.

ABOUT AGILYSYS

Agilysys has been a leader in hospitality software for more than 40 years, delivering innovative guest-centric technology solutions for gaming, hotels, resorts and cruise, corporate foodservice management, restaurants, universities, stadia and healthcare.
