

Powering Seamless Casino Resort Operations

Unified Guest, Player, & Property Management

Run every part of your casino resort from a single, connected platform.

Agilysys Versa is purpose-built for casino environments, unifying hotel operations with player activity, gaming data, and resort services. From reservations and check-in to comps, billing, and multi-outlet experiences, everything is managed in one system. With real-time visibility, flexible workflows, and centralized control, teams can move faster, reduce manual effort, and stay aligned across gaming and hospitality operations. The result is a more connected guest experience, improved operational efficiency, and stronger revenue performance across the property.

Benefits:

Simplify Casino Resort Operations

Streamline hotel, gaming, and resort workflows in one system to reduce complexity and improve daily execution.

Maintain Real-Time Room & Player Visibility

Track room availability alongside player activity and comps to better manage occupancy and VIP experiences.

Enhance Player & Guest Experiences

Provide staff with real-time access to guest profiles and player data to deliver more personalized, high-value service.

Support Connected Resort Operations

Align hotel, gaming, and amenity teams with standardized processes across the entire property.

Increase Staff Efficiency

Reduce manual processes with automated workflows that support both hospitality & gaming operations.

Drive Revenue & Loyalty Insights

Leverage real-time data to optimize pricing, comps, and offers while strengthening player retention.
