

Technology To Power Every Guest Touchpoint

POS That's Resilient, Intelligent and Purpose-Built For Hospitality

Exceptional guest experiences start with technology that never misses a beat.

Hospitality foodservice operations, from restaurants and resorts to campuses and entertainment venues, face mounting pressure from rising costs and evolving guest expectations. Agilysys InfoGenesis POS addresses these challenges with flexibility and intelligence, enabling operators to optimize revenue, personalize service, and maintain business continuity even in the most demanding environments.

Benefits:

Faster Service & Higher Revenue

Accelerate service with advanced check management and optimized workflows. Shorter wait times, faster table turns, and error-free transactions mean more guests served and a better overall experience.

Flexible Technology & Seamless Integration

Speed up every step with digital contracting and faster communication, Helps boost the turnaround time of signed agreements and teams stay aligned.

Frictionless Order & Payment

Deliver effortless ordering and payment across every channel such as kiosk, mobile, tableside, and beyond all on a unified solution that drives upsells and loyalty.

Informed Decision-Making

Improve profitability by accessing up-to-date sales and performance metrics within InfoGenesis, with the option to extend advanced reporting insights and analytics through Agilysys Analyze.

Reliable Performance

Keep transactions flowing in the busiest environments with a platform built for uptime and resiliency. Deliver uninterrupted service, even during network disruptions or loss of internet connectivity.

Enhanced Productivity

Simplify onboarding and boost staff efficiency with an intuitive, modern user experience that stays consistent across all team touchpoints.
